Announcements of the Individual European

National Rheological Societies

Time period September 2004 to February 2005

The international bimonthly journal Applied Rheology offers all European rheological societies an extended platform for communication with their members and other rheologists.

Two special issues of Applied Rheology each year provide a number of pages dedicated to announcements from rheological societies. These may be a meeting announcement for the members of your society, an activity supported by your society, address changes, etc. In addition there will be also some space reserved for individual announcements. The motivation behind this offer is to collect the announcements that are usually transmitted to us by individual members of the national societies or conference organizers and then printed throughout the year in Applied Rheology.

Strict deadlines for providing information to be printed in these special issues are February 1st and August 1st, respectively. We are able to offer sending these special issues – which as usual contain scientific contributions, patents, conference calendar and conference reports, buyers guide, news – to all members of your community at a very reduced rate, or even without extra charge, depending on the current agreement between your society and Applied Rheology.

NRS

NORDIC RHEOLOGY SOCIETY

■ Nordic Rheology Awards

NRS may present two awards a year and all members of NRS are encouraged to propose nominees. The Carl Klason Rheology Award and the Young Rheologists Rheology Award are given to persons active in the Nordic countries.

The Carl Klason Rheology Award amounting to 1000 Euro may be given to a person who either has made outstanding contributions to the basic understanding of rheological phenomena or to the application of rheology, or has made outstanding contributions to the progress of rheology in one or more of the Nordic countries.

The Young Rheologists Rheology Award with 500 Euro may be given to a young person who has made outstanding work in basic or applied rheology at the graduate or postgraduate level.

The awardees are selected from the nominations by the Award Committee which consists of

- · Anne-Marie Hermansson, Göteborg
- Kurt-Ingar Draget, Trondheim
- Ole Hassager, DTU, Lyngby

A letter describing the nominee and a motivation can be sent to the NRS secretary or president at any time.

The awards have been given to the following distingushed rheologists:
