Announcements of the Individual European

National Rheological Societies

Time period March 2003 to August 2003

The international bimonthly journal Applied Rheology offers all European rheological societies an extended platform for communication with their members and other rheologists.

Two special issues of Applied Rheology each year provide a number of pages dedicated to announcements from rheological societies. These may be a meeting announcement for the members of your society, an activity supported by your society, address changes, etc. In addition there will be also some space reserved for individual announcements. The motivation behind this offer is to collect the announcements that are usually transmitted to us by individual members of the national societies or conference organizers and then printed throughout the year in Applied Rheology.

Strict deadlines for providing information to be printed in these special issues are February 1st and August 1st, respectively. We are able to offer sending these special issues – which as usual contain scientific contributions, patents, conference calendar and conference reports, buyers guide, news – to all members of your community at a very reduced rate, or even without extra charge, depending on the current agreement between your society and Applied Rheology.

NRS

NORDIC RHEOLOGY SOCIETY

■ Nordic Rheology Conference 2003: 2-3 June, Tórshavn, The Faroe Islands

The Nordic Rheology Society cordially invites all those interested in rheology to the 12th annual course and conference. The conference aims as usual to cover all aspects on rheology and this year, special focus will be placed on "Suspensions and Emulsions". The conference will be held at the Nordic House in Tórshavn. Topics within the theme will be covered by plenary lectures by specially invited speakers. We would also like to draw your attention to the rheology course, which will be held a day before the conference at the University of Faroe Islands. This course gives excellent access to the topical Rheology subject.

The following invited speakers have agreed to contribute to the Rheology Course and give Plenary lectures at the conference:

- David Boger (University of Melbourne, Australia)
- Henning Winter (University of Massachusetts, USA)
- Arild Saasen (Statoil, Norway)
- Kevin Taylor (Saudi Aramco, Saudi Arabia)

Please find further information and on-line registration on the society homepage:

www.NordicRheologySociety.org

Students are encouraged to apply for the NRS Student Travel Grant before April 15, 2003. Please send a single page application stating your type of studies, title of contribution to the conference, and a motivation to Peter Szabo (ps@kt.dtu.dk).

Organising committee:

Jóannes Djurhuus (University of the Faroe Islands, joandjur@setur.fo)
Peter Szabo (Technical University of Denmark)
Sarah Mason (Technical University of Denmark)
Niall Young (Danisco Cultor A/S)

AERC 2003

first
Annual European Rheology Conference

EUROPEAN SOCIETY OF RHEOLOGY

September 11-13, 2003
GUIMARÃES, PORTUGAL

The aim of *AERC 2003* is to contribute to the advancement of Rheology in Europe, by bringing together researchers in a meeting of broad scientific scope, focussed on the presentation of novel, recent high-quality scientific results.

SYMPOSIA:

- *Rheology for Biological and Food Applications*
- *Foams, Emulsions and Surfactants*
- *Blends and Copolymers*
- *Polymer Melts and Solutions*
- *Suspensions and Colloids*
- *Rheology in Materials Processing*
- *Non-Newtonian Fluid Mechanics and Theoretical Modelling*
- *Computational Rheology*
- *Flow Instabilities*
- *Experimental Rheology*
- *New Frontiers in Rheology*
