Announcements of the Individual European

National Rheological Societies

Time period March 2005 to August 2005

The international bimonthly journal Applied Rheology offers all European rheological societies an extended platform for communication with their members and other rheologists.

Two special issues of Applied Rheology each year provide a number of pages dedicated to announcements from rheological societies. These may be a meeting announcement for the members of your society, an activity supported by your society, address changes, etc. In addition there will be also some space reserved for individual announcements. The motivation behind this offer is to collect the announcements that are usually transmitted to us by individual members of the national societies or conference organizers and then printed throughout the year in Applied Rheology.

Strict deadlines for providing information to be printed in these special issues are February 1st and August 1st, respectively. We are able to offer sending these special issues – which as usual contain scientific contributions, patents, conference calendar and conference reports, buyers guide, news – to all members of your community at a very reduced rate, or even without extra charge, depending on the current agreement between your society and Applied Rheology.

INTERNATIONAL COMMITTEE OF RHEOLOGY

■ Committee Meeting during IRC Seoul/Korea

The Committee met on August 24, 2004 during the XIVth International Congress on Rheology held in Seoul/Korea. Chaired by Ken Walters and the committees' secretary David James, 22 delegates and observers of the national rheological society the following subject were discussed.

- The next International meeting (XVth International Congress on Rheology) will be held in Monterey/California. Gerry Fuller (Stanford University) and Robert Powell (UC Davis) on behalf of the Society of Rheology (USA) will be the main organizers of the meeting.
- Manfred Wagner (TU Berlin/Germany) was elected as the committee's secretary followed David James who not stands for re-election after 16 years in office. The Committee approved that the position should be limited to maximum 12 years and should rotate around the three regions (Asia, Americans, Europe) in the same manner as the Congress site.
- Hae Chun Hyun (Seoul/Korea) was elected as the next Chairman of the Committee. The chairman's position is limited to four years and normally is offered to the organizer of the International Congress on Rheology.
- The President of the European Society of Rheology (ESR) is invited to attend meetings of the International Committee as a non-voting observer since the President of the ESR not necessarily is an international delegate or president of an individual European Society and thereby entitled to join.

■ Chief officers of the HRS in 2004 - 2006

President

Prof. Jean-Michel Piau
Laboratoire de Rhéologie
Domaine Universitaire
BP 53
38041 Grenoble Cedex 9
France
Tel: x33.476825170
