Announcements of the Individual European

## **National Rheological Societies**

Time period February 2006 to September 2006

The international bimonthly journal Applied Rheology offers all European rheological societies an extended platform for communication with their members and other rheologists.

Two special issues of Applied Rheology each year provide a number of pages dedicated to announcements from rheological societies. These may be a meeting announcement for the members of your society, an activity supported by your society, address changes, etc. In addition there will be also some space reserved for individual announcements. The motivation behind this offer is to collect the announcements that are usually transmitted to us by individual members of the national societies or conference organizers and then printed throughout the year in Applied Rheology.

Strict deadlines for providing information to be printed in these special issues are February 1st and August 1st, respectively. We are able to offer sending these special issues – which as usual contain scientific contributions, patents, conference calendar and conference reports, buyers guide, news – to all members of your community at a very reduced rate, or even without extra charge, depending on the current agreement between your society and Applied Rheology.

### Plenary speakers

**Prof. John F. Brady**  
California Institute of Technology

**Prof. Ralph H. Colby**  
Pennsylvania State University

**Prof. Jan K.G. Dhont**  
Forschungszentrum Jülich

**Prof. Fred MacKintosh**  
Vrije Universiteit Amsterdam

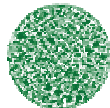

**Prof. Tom C.B. McLeish**  
University of Leeds

**Prof. Paulo J. Oliveira**  
Universidade da Beira Interior

The following **short courses** will also take place prior to AERC 2006 (25-26 April):

- *Multi-scale modelling methodologies*
- *Interfacial rheology and applications*

Relevant details will be available on the web.

### Technical Program

Symposia and chairpersons

**Suspensions and colloids:** G. Maitland and N.J. Wagner  
**Blends, copolymers and nanocomposites:** P. Moldenaers and I. Emri

**Flow-induced phase transitions and instabilities:** N. El Kissi and P.L. Maffetone

**Liquid crystals, polyelectrolytes and associating fluids:** N. Grizzuti and V. Kulichikhin

**Biopolymers, biorheology and food rheology:** T. Gisler and C. Gallegos

**Viscoplasticity, granular flows and jamming:** M. Cloitre and O. Pouliquen

**Rheometry and beyond: advanced experimental methods:** N. Willenbacher and T. Schweizer

**Entanglements, viscoelasticity and microstructural modelling:** C. Bailly and A. Likhtman

**Non-Newtonian fluid mechanics, turbulence and processing:** H. Meijer and M. Webster

**Interfacial phenomena, surfactants and foams:** L. Ramos and P. Fischer

### Fees

**Delegates: 260 € (360 € after February 28, 2006)**

**Students: 150 € (200 € after February 28, 2006)**

The registration fee includes the book of abstracts, attendance to all technical sessions, coffee breaks, and the conference dinner. Social and accompanying persons programmes will also be organized. The cost of the dinner for accompanying persons is 40 €.
